

Introducing a Sophisticated Top Rail for Plenty of Support **PARK RAIL Top Rail**

Provides a Look as Strong as its Performance...

Now you can have a Continuous Top Rail look while using up to a 3" square post!

The **Park Rail Top Rail** is suitable for both picket and glass systems, allowing your project to combine features and advantage of both types of systems, yet still providing a consistent look throughout.

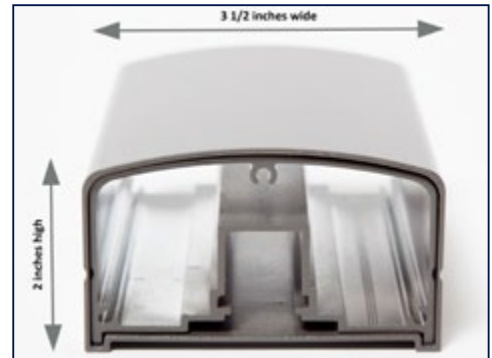

Dimensions: 3½" wide | 2" high

With a much wider, beefier look than the average aluminum top rail profile, the **Park Rail Top Rail** is similar in appearance to what you've come to recognize as 2 x 4 (wood) size; but this top rail is not vulnerable to the elements the same way as wood.

Its construction of durable powder-coated aluminum and is made to last without the need for maintenance.

The **Park Rail Top Rail** profile is available in 9 standard colors, up to 180+ custom colors.

- **Design Tip:** the **Park Rail Top Rail (XLPR)** is the *ideal* top rail for a beefy, wood look using one of our authentic looking wood grain finishes over the durable powder-coated aluminum.

**One Top Rail...Virtually
Any Post Size.**
