

TOPLESS GLASS

TOPLESS GLASS SYSTEM

PUP Post - A single, multifunctional post... nearly LIMITLESS options!

A top of the line railing solution offering luxurious style with exceptional versatility.

For The Builder

Complete design flexibility allows a single post to function as either an in-line, corner or end post with multiple angles, heights, and in-fills.

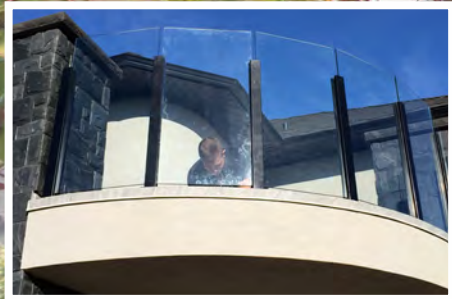

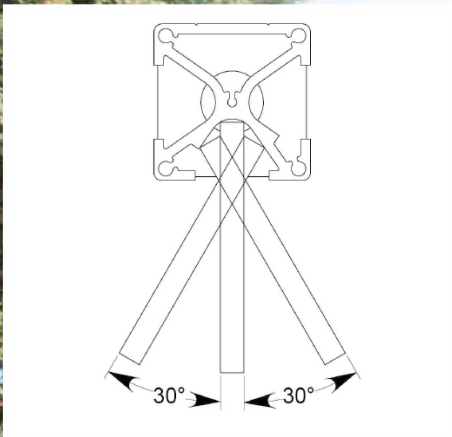

For The Home Owner

A luxury deck railing system to maximize views, provide wind protection or privacy...all with the ability to accommodate custom design needs beyond the traditional deck.

TOPLESS GLASS

PUP Post - The Next Generation of Glass Railings

- **Choose Your Post Position:**
A revolutionary multi-functional post enables a single post to function as an in-line, corner or end post.
- **Choose Your Angle:**
Multi-function insert component allows up to a 30° angle variance on each side, adjustable to the shape of virtually any space. Need to “bend” your glass around a corner? No problem!
- **Choose Your Mounting Style:**
Traditional surface mount or fascia mount, for the best match to your decking system or local code requirements.
- **Choose Your Glass Style:**
The tempered glass panels can be clear for view-through railings, frosted for privacy, or any combination of both.
- **Choose a Privacy Option:**
Accepts frosted glass and slotted aluminum planks like Knotwood™.
- **Choose Your Height:**
Whether you want your glass at post height, or extended height to provide a wind or privacy screen; PUP Post allows you to adjust the position of where the glass sits.
- **Choose Your Look:**
If you prefer the look of a continuous top rail over a topless glass system, you have the option of adding the XLPR Top Rail.
